WHO WE ARE

Founded in 2022, Frontier Diagnostic Center in Kigali is based and owned by Frontier polyclinic Ltd.

We are a medical facility providing an entire spectrum of medical services, through expert clinicians ,latest and top diagnostics & treatment modalities. through better diagnosis and treatment using advanced diagnostic equipment. Frontier Diagnostic Center is bringing the “state of the art medical center” to Rwanda intending to change the future of diagnosis and treatment. Our Center is an example of an international first-class diagnostic facility in Radiology, pathology, diagnostics & consultation services. We are proud to provide experienced consultants in different specialties along with dedicated health allied personnel.

OUR MISSION

We are committed to changing the future of diagnosis and treatment by providing high-quality international standard healthcare services with expert clinicians, latest and top of the line Diagnostic procedures & treatment thereby saving time, money, and precious lives.

VISION & VALUES

Our vision

The Frontier Diagnostic Center shall be the front runner for the latest Diagnostic procedures and treatment. Always considering efficiency, accuracy, safety, and customer service satisfaction.

Our values

We value people's teamwork, integrity, transparency, and accountability

Opening ceremony

MAnaging Director with Staff

Nursing staff

A person is seen from the side, sitting at a desk in a medical imaging department. They are looking at a computer monitor that displays a medical scan of a human head. The person's hand is on a keyboard. The background is a blurred view of a medical facility with other equipment and a window. The text "MEDICAL IMAGING DEPARTMENT" is overlaid in large, bold, black capital letters.
